Tell The Story

Rx Savings
Solutions

“It does work,
and it helps you
save a whole bunch
of money.”

Savings They Deserve

“I was prescribed a medication by my doctor which would have cost me \$200 per month. There’s no generic for this medication. I now pay no more than \$50 on that medication. **This will probably save me \$1,800 per year.** A huge savings.”

“The best part is I can get a discount on a prescription that isn’t covered by my health insurance. **My prescription went from \$98 (per month) to \$13.** Huge savings.”

Michael

Quest Diagnostics

“I didn’t think Rx Savings Solutions could save me any money... **They called the pharmacies and talked directly to them and I was not put in the middle.** On two prescriptions, the total savings will be about \$140 per month.”

How Do Members Save?

Members take advantage of Rx Savings Solutions in a variety of ways:

Savings Alerts – Once registered, members can view every opportunity to save on the medications they're taking on their personal dashboards.

Notifications – Members who sign up are proactively notified of savings opportunities on current prescriptions via text and email messages.

Search – Any time they are prescribed a new medication, members can search for the best prices and any available opportunities to save.

Member Services – Certified pharmacy technicians are on call every business day to personally help members navigate their options and take action. They call us, and we call them.
