

Next Time You See the Doctor, Bring a Friend with You

Use the Rx Savings Solutions app anytime you get a new prescription, and find the lowest-cost option every time!

THE SITUATION

At the end of your appointment, the doctor hands you a prescription or asks which pharmacy to call. **STOP!** Now is the time to pull up the Rx Savings Solutions mobile app.

THE SOLUTION

Before the doctor leaves the room, do a quick search for the prescribed medication on the app. (Don't worry about spelling!) Within seconds, you'll see a list of every available savings opportunity.

THE CONVERSATION

Ask your doctor if any options on the list will work for you based on your condition, expenses and health plan.

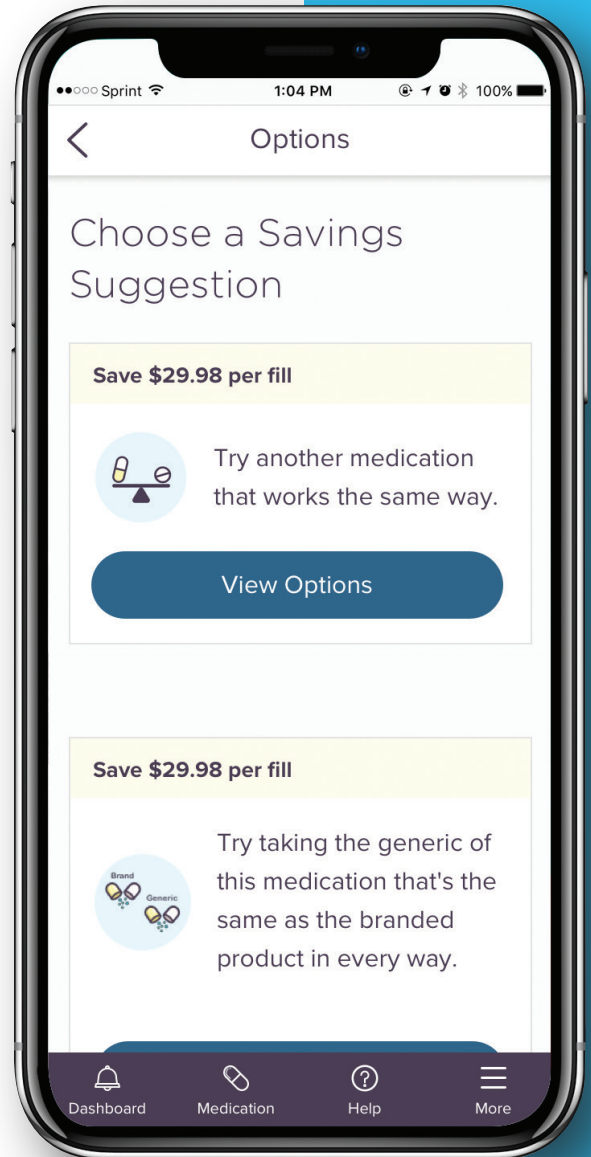

GET IT BEFORE YOU GO

Download the Rx Savings Solutions app from the Apple App Store® or Google Play™. It only takes a few seconds, but do it before your appointment.

IT WORKS AT THE PHARMACY TOO!

If you forget to ask at the doctor's office, it's not too late! Simply search for the same medication and show your pharmacist the list. Many savings suggestions don't require a new prescription. (If necessary, just call your doctor's office to request a switch.)

Activate your benefit at myrxss.com or search for Rx Savings Solutions on Google Play™ or the App Store®.
